

### **Offer for 2 years free membership of ABAC.**

ABAC is seeking to increase the number of its member track and field clubs. The next few years will be critical for our sport as a new Government seeks to cut Departmental costs and to streamline Quangos. ABAC has already contributed to recent surveys reviewing the state of track and field as well as the performance of both Sport England and UK Sport.

Meanwhile changes are being introduced by our NGBs contrary to the wishes of many clubs. Age group alterations and the rise in Affiliation fees are examples of decisions introduced without the consent of clubs. Furthermore the move to only recognise events permitted by UKA has meant that many performances are not listed on the P10 website which is controlled by UKA.

**Now is a critical time for clubs to come together once again. ABAC can and will represent your views and our strength will be in numbers. You can help ABAC to help you by signing up for 2 years free membership of ABAC. To register your club please contact :** -

**Please note. The topsinathletics** website lists member ABAC clubs annual Rankings and updates them weekly. This service is available free of charge to ABAC member clubs. All you have to do is request for your club to be included.

**topsinathletics** also uniquely records all performances from races permitted by the Association of Running Clubs (ARC).
